*Apologies for any inconvenience.*

Dear Parents

As we begin the 2020 school year, we acknowledge media reports and government announcements relating to the Novel coronavirus. Macquarie College is monitoring advice issued by various agencies including the AISNSW and NSW Health, regarding prevention of illness and management of student health .

We confirm that the Australian Government Department of Health has issued an Information Sheet for parents, and invite you to [click here](#) to review this information. Further information is also available on the NSW Health website including a [Fact Sheet](#) and [FAQ's](#).

Current advice is that any students or staff who have traveled recently to mainland China / Hong Kong are to self-quarantine for 14 days from their departure date as a precaution against transmission.

If this relates to you or your children, please contact me so that we can discuss how we can support you and your children through this process.

Self reporting is an important step in virus control and we will actively partner with you to assist over this 14 day period in regards to school and school life as the year 'kicks off'.

Macquarie College will provide further updates to parents as needed, following advice from relevant agencies.

Kind regards,

**Rohan Deanshaw**

Principal
